PROFESSIONAL SUMMARY

Data and Marketing Analyst with 4+ years of experience in data analysis, marketing analytics, risk and loyalty. Builds live dashboards with SQL, BigQuery and Looker Studio, and AI automation tools with Claude that monitor campaigns and write reports, with every output checked before it is shared. Focused on helping campaigns reach their KPI targets and a strong ROAS.

WORK EXPERIENCE

Data Analyst, A2Z Media Group (Qatar)
Jun 2024 - Present | *Remote, Cairo, Egypt*

Markets: Saudi Arabia, UAE, Qatar, Oman, Nigeria and GCC-wide campaigns for 44 brands.

- Built live Looker Studio and Power BI campaign dashboards, using SQL in BigQuery to prepare the data.
- Led weekly client reviews, explained results against the media plan, and recommended budget and creative changes to reach targets and improve ROAS.
- **AI automation:** built a Claude skill that checked campaign pacing against the media plan every day and emailed the digital team any platform 5+ points behind spend.
- **AI automation:** built a second Claude skill that wrote end-of-campaign summaries by objective, ranking platforms by cost per metric.
- Tested both tools against manual checks and reviewed every output before it reached the team or a client.
- Automated weekly and monthly reports with Power Automate and Google Sheets, saving about six hours a week.

Data Analyst, Almosafer (Seera Group)
Jan 2022 - Jun 2024 | *Cairo, Egypt*

Markets: Saudi Arabia, UAE, Kuwait, Oman and Qatar.

- Analysed 1M+ online and offline booking transactions with SQL and Python, including a per-agent review, to catch abuse and website or app bugs.
- Added new checks for each new abuse pattern, worked with Legal to recover lost money, and sent online gaps to the tech teams to fix.
- Managed all client loyalty wallets with full access (add or remove points, block fraud cases), reviewing 1,000+ cases a month.
- Solved points issues with loyalty partners AlFursan (Saudia), Qitaf (stc) and Mokafaa (Al Rajhi Bank).
- Built Tableau risk dashboards used daily by the Risk and Operations teams.

Customer Service Agent, National Bank of Egypt
2021 - Jan 2022 | *Cairo, Egypt*

- Handled high volumes of banking enquiries with consistently high customer satisfaction ratings.
- Nominated by my team lead to support new joiners on live calls during their first weeks.

EDUCATION

Bachelor's Degree in Accounting, Ain Shams University | *2020* | *Cairo, Egypt*
Data Analysis Course, Machinfy Academy
