Profile

Data and Marketing Analyst with 4+ years of experience in marketing, risk and loyalty analytics. Builds live dashboards with BigQuery, SQL and Looker Studio, and AI automation tools with Claude that monitor campaigns and write reports, with every output checked before it is shared. Focused on helping campaigns reach their targets and a strong ROAS.

Work Experience

Jun 2024 – Present
A2Z Media Group (Qatar), Remote from Cairo
Data Analyst · 44 brands in KSA, UAE, Qatar, Oman, Nigeria and the GCC

- Built live Looker Studio and Power BI campaign dashboards, using SQL in BigQuery to prepare the data.
- Led weekly client reviews, explained results against the media plan, and recommended budget and creative changes to reach targets and improve ROAS.
- **AI automation:** built a Claude skill that checked campaign pacing against the media plan every day and emailed the digital team any platform 5+ points behind spend.
- **AI automation:** built a second Claude skill that wrote end-of-campaign summaries by objective, ranking platforms by cost per metric.
- Tested both tools against manual checks and reviewed every output before it reached the team or a client.
- Automated weekly and monthly reports with Power Automate and Google Sheets, saving about six hours a week.

Jan 2022 – Jun 2024
Almosafer (Seera Group), Cairo, Egypt
Data Analyst · KSA, UAE, Kuwait, Oman and Qatar

- Analysed 1M+ online and offline booking transactions with SQL and Python, including a per-agent review, to catch abuse and website or app bugs.
- Added new checks for each new abuse pattern, worked with Legal to recover lost money, and sent online gaps to the tech teams to fix.
- Managed all client loyalty wallets with full access (add or remove points, block fraud cases), reviewing 1,000+ cases a month.
- Solved points issues with loyalty partners AlFursan (Saudia), Qitaf (stc) and Mokafaa (Al Rajhi Bank).
- Built Tableau risk dashboards used daily by the Risk and Operations teams.

2021 – Jan 2022
National Bank of Egypt, Cairo, Egypt
Customer Service Agent (Call Centre)

- Handled high volumes of banking enquiries with consistently high customer satisfaction ratings.
- Nominated by my team lead to support new joiners on live calls during their first weeks.

Education

2020
Ain Shams University, Bachelor's Degree in Accounting

Machinfy Academy, Data Analysis Course
